Universal coordinate measuring machine for easy and fast measurement

The search for Excellence is the philosophy which has led to the development of the Micro-Hite 3D, based on technologies that have widely contributed to make all TESA's systems a success.

The full range is powerful, efficient, yet cost-effective, guaranteeing the most favourable price/performance ratio due to its simplicity and ease-of-use, still unmatched to date. Through the combination of a rigorous mechanical construction ensuring high accuracy with a user-friendly, intuitive software tool, TESA only corroborates the time-tested features having promoted its small machines to the rank of indispensable ones on the worldwide CMM market.
